

Velstone

*Curved island bench
Dr Challoner's Grammar School, Bucks*

*Sink cut out
Featherstone School, Twickenham*

*Sink cut out and elliptical island bench
Dr Challoner's Grammar School, Bucks*

*Perimeter benching with sink cut outs
Sussex Coast College, Hastings*

The affordability of Velstone allows schools to benefit from the smooth seamless finish traditionally offered by more expensive solid surface materials.

Key Benefits

- > Velstone is the only European manufacturer of solid surface materials to offer a homogeneous 25mm thick product specially designed for Education and Healthcare projects.
- > Velstone is a 100% non-porous product which allows a seamless surface helping to prevent growth of bacteria. This is particularly key in Food Technology rooms.
- > Velstone helps create a sterile work surface which is easy to maintain and clean.
- > Stains and graffiti can be removed using standard supermarket cleaning detergents or by sanding.
- > Even when damaged Velstone tops can usually be repaired on site.

Technical Data

Velstone is a natural mineral (Aluminium Hydroxide) bonded together in a Polyester/Acrylic Matrix. Velstone is manufactured using a unique blend of Unsaturated Polyester Resin and Acrylic Resin thereby offering great mechanical strength and weathering resistance.

Velstone has been awarded the Royal Institute of Health and Hygiene Certificate annually since 1994. It has been certified for use in environments where Public Health & Hygiene is paramount. Velstone is one of the few solid surface materials to hold BS Part 476 Class 0 and Class 1 Fire ratings.
