

### testimonial

"The school has undergone a substantial renovation and the success of this has had a lot to do with the contribution made by your workforce. The standard of work has been excellent and the men involved in carrying out this work have made every effort to fit in with the workings of the school.

It would be a pleasure to recommend your company without reservation."

**Alex Russell - Headteacher, Epsom & Ewell High School, Surrey**

Reception

- > Manufacture of furniture
- > New furniture installed
- > Commissioning and certification of all works

The summer of 2009 has proved a busy one for us at Klick Technology, having been appointed by Epsom & Ewell High School in Surrey to carry out extensive refurbishment work around the existing site.

The refurbishment included the conversion of the existing shower/office area into a new sports technology suite. This included new hygienic cladding throughout the changing area, new ceilings/lighting, new changing benches, lockers, w/cs, basins and slip resistant flooring.

Our ability to offer a one-stop shop service for these vital areas of work went some way to ensuring we won this project. But it was our attention to detail, excellent project management, cost management, friendly approach and determination to deliver a very high standard on time and to budget that ultimately won the day.
