

"We would like to take the time to thank you and your team for the contribution in ensuring the above project was delivered on time and to the high standard expected by us and the Client.

The levels of care and experience shown by your team ensured the success of this project. We would have no hesitation in using your company again or recommending you to others."

**Richard Stewart – Senior Quantity Surveyor, Kier Moss
Gloucestershire Schools Project**

"It has been a pleasure to work with Klick Technology over the summer regarding the new Food Technology rooms at Cheadle Hulme School. The order was well managed, delivered and installed to a high standard with any after sales issues quickly and effectively resolved. Overall our client is delighted with the finished result, and we look forward to working with Klick on future projects."

**Barry Johnson – Architect, Thomas Worthington Design, Cheadle, Cheshire
Re Cheadle Hulme School, Cheshire**

"Klick Technology completed a third science lab for the school this summer. The conversion of an ICT room/office into a science lab/prep room ran very smoothly and Klick have maintained a high level of service once again."

Richard Mapp – Business Manager, Sir William Ramsay School, High Wycombe, Bucks

"New lab has transformed our science department. With a very short timeline design, build and installation was completed in budget and deadline. The product is excellent, very robust and will last for years.

The Science department are very happy with the lab and should we need anything else, I'll call Klick first."

Neil Housom – Bursar, Sherrardswood School, Hertfordshire

"I would like to take the opportunity to express our thanks to you and your team for all your efforts in making the above scheme a success.

The attention to detail and quality of the installation has been crucial to the overall success of the project. In particular we would like to thank your designers who have worked tirelessly and without complaint on a huge number of variations.

We would have no hesitation in working alongside you in the future, and view Klick as a preferred supply chain partner."

**Phil Gornall – Chartered Building Surveyor, Cassidy & Ashton Architects and Building Surveyors
Re Christ The King Catholic Maths & Computing College, Preston**

"From beginning to end you took the pain out of project management. Thank you."

Philip Beveridge – Business Manager, Kingsweston School, Bristol

"We are very pleased with your installation but above all your support and commitment to achieving all that you have in the timescales"

Jayne Copues - City & Council of Swansea

"As usual....a good working relationship. Many thanks."

**Fred Shorrocks – Ass. Director, Cassidy & Ashton Architects and Building Surveyors
Re Ilfracombe College, Devon**

"Excellent workmanship and value for money."

David Slack – Assistant Head, St Mary's Catholic College, Blackpool

"I like the attitude of the company which comes across as caring, solution-orientated and highly professional. Many Thanks."

Jerry Wilkes – Head of Design Technology, The Lancaster School, Leicester

"We would like to thank all at Klick Technology for completing our project with such short notice and without lacking the use and quality desired from the initial intention."

Ian Flood – Ass. Quantity Surveyor, Tolent Construction, Gateshead

"I would and have recommended Klick to carry out works. I know I can completely rely on Klick from start to finish of the work."

Ann Gibbs – Finance Officer, Bexley Grammar School, Kent

"This is our second Food Tech room completed by Klick and they have continued their good working practice. The project progressed smoothly with a good overall finish to the room."

A.J. Ford – Senior Site Manager, Staunton Community Sports College, Havant, Hampshire

"A quality product designed and installed within a very short time. We are delighted with the end product and the manner in which this was achieved."

David Poole – Bursar, Old Palace of John Whitgift School, Croydon

"The radical design for the new fittings in the science laboratory "The Learning Curve" demanded a high level of collaboration on manufacture and installation of the units and worktops. Klick were able to provide a single point of contact with an experienced project manager, which has resulted in a laboratory to be proud of, and a learning and teaching space which has genuinely raised the level of enthusiasm and engagement amongst pupils and staff alike."

Simon Filsell - Business Manager & Clerk to the Governors, Dr Challoner's Grammar School, Amersham, Bucks

"The refurbishment of our Lab H has turned an old, tired laboratory into a bright, engaging learning space, much appreciated by students and staff."

David Palmer – Business Director, Wycombe High School, High Wycombe, Bucks

"The project was completed on time and on budget. The installation went very smoothly and we are delighted with the finished product."

Euan Imrie - Bursar, Sandbach School, Cheshire

"We are really pleased with the Lab and Dining Room works which Klick did for us very efficiently and relatively painlessly. You worked with us on this and were always very helpful and amenable - which I really appreciated."

Sue Scott - Business Manager, Windsor High School, West Midlands

"Good communication between Klick and school from start to finish. All problems dealt with promptly. Office very helpful."

Julie Lile – Director of Studies, Bullers Wood School, Chislehurst, Kent

"Christ the King Catholic Maths and Computing College have worked closely with Klick Technology over the past two years on a multi phased project to improve school facilities. They have provided two new build Science labs, two refurbished Science labs, a prep room and a new food technology room which was transformed by installing an atrium roof.

Their contracts team smoothly managed the logistics of completing a new build extension during term time, working during school hours with minimum disruption to the daily routine. They have always accommodated our requests and kept us informed of progress through each phase of the project."

Nicola Chester - School Manager, Christ The King Catholic Maths & Computing College

"It was quite some achievement to co-ordinate the installation of furniture into 68 different areas within the school. However, Klick managed it and we are all very pleased with the end result. The children are thrilled to have a proper school at last!"

Vicky Vernon - Head Teacher, Torc Campus, Tamworth, Staffordshire.

"I am really pleased with the responsiveness of the staff at Klick Technology at every stage. The work was completed to a very tight timescale and was within budget. We also felt that we gained value for money."

Julie McCann – Vice Principal (Resources), Priestley College, Warrington

"The whole process was painless, visits were made on time, information arrived when expected, the units were delivered to site on time and the installers kept to the programme. Minor faults or changes were always dealt with promptly."

Richard Millard, Mark Rutherford School, Bedford

"It has been a pleasure to work with Klick who have met scheduled dates and co-operated well with school staff in managing projects during term-time. We will most definitely invite Klick to quote for further projects"

Liz Mc Dowell - Business Manager, The Beaconsfield School, Bucks

"We appointed Klick Technology earlier in the summer to refurbish our existing Food Technology room. They provided all the required furniture, including splashbacks and worktops and also carried out all the necessary electrical and gas work. They also fitted the appliances which were obtained from a different source.

Their friendly approach and professionalism from the start of the project until handover has been well received by all at the school and it has been a painless experience throughout.

We are delighted with the results and would have no hesitation appointing Klick to work with us on any future projects of this nature."

Elizabeth Fritchley – Bursar, William Hulme's Grammar School, Manchester

"On behalf of the school and the governing body I would like to take this opportunity to thank you and your staff for the work that they have carried out at Epsom and Ewell High School over the past few months.

The school has undergone a substantial renovation and the success of this has had a lot to do with the contribution made by your workforce. The standard of work has been excellent and the men involved in carrying out this work have made every effort to fit in with the workings of the school. This was especially evident during the time that they worked here before the summer break.

In particular, I would like to advise that Richard Mather proved himself to be invaluable in making sure everything was completed to our specification and with the minimum of disruption to staff and students.

If there is ever anything that the school can do on your behalf with regards to any projects that you may wish to become involved in, please do not hesitate to contact us. It would be a pleasure to recommend your company without reservation."

Alex Russell - Headteacher, Epsom and Ewell High School, Surrey

"Klick Technology were a very professional company from start to finish of this very exciting project. All staff have been helpful and readily available at all times.

I am very impressed at their level of fitting standards and their competence to make changes to the layout to accommodate site conditions without any fuss or extra charges.

We are absolutely delighted with our new technology block and would recommend Klick Technology without hesitation."

Anthony Sullivan - Premises Manager, Chislehurst and Sidcup Grammar School, Kent

"The work was completed two weeks ahead of schedule and on budget. The college is impressed by the quality of work and the level of service provided by Klick. All staff were helpful and courteous. We just left them to it and the transformation is remarkable."

Simon Parkinson - Head of Finance & Operations, St. Ambrose College, Hale Barns, Cheshire.

"We are very pleased with our new stainless steel GCSE catering facility. Klick Technology were resourceful in finding solutions to the various design and site issues that arose. Their service was extremely good and I am looking forward to working with them on a second room to be installed next year."

Jill Thomas - Head of Food Technology, Darrick Wood Senior School, Orpington, Kent

"We appointed Klick Technology to undertake two fast-track laboratory fit-out projects at almost opposite ends of the country. They were very proactive in their approach to both projects which demanded additional and imaginative storage solutions suitable for the limited space within the clients specialised laboratory facilities. Klick Technology resolved any minor issues that arose and were well organised in fully coordinating and interfacing their site activities with other sub-contractors. Both projects were completed on-time and within budget..."

Phil Ardern - Regional Director, Bassaire Limited

"Klick Technology completely refurbished six science laboratories in our science block last summer. The project was well managed and any issues that arose at any stage were smoothly resolved. I would happily recommend this service to other schools and colleges."

Mark Shillito - Director of Finance and Resources, Notre Dame Catholic Sixth Form College, Leeds, Yorkshire
