Rigid Beam Framework

### A S-LINE

Stunning looks combined with solid steel construction make this workstation ideal for creating that modern, 'state of the art' appearance in the computer suite.

Cables can be hidden within the legs and the 'beam' construction incorporates a built in cable trough. Continuous, linked runs of benching for perimeter or peninsula use are possible using the unique beam system. MDF worktops, in a choice of Beech or Grey, compliment the silver finish steel framework.

Incorporates port holes and full length steel cable trough.

<b>720mm Height</b>		<b>Ex. VAT</b>
<b>SL126</b>	1200 x 600mm	<b>£189.00</b>
